The prior art of record, alone or in combination, teaches transmitting a text message before or after the establishment of a wireless connection to a remote answering device to listen to recorded speech messages.

The prior art of record does not teach transmitting a text message containing stored information from a calling subscriber, in parallel to transmitting recorded speech messages from the calling subscriber, to the called subscriber when the called subscriber establishes a wireless connection to the remote answering device to listen to recorded speech messages. Therefore, applicant's invention as claimed is novel and comprises of allowable subject matter.
